# PRINCIPLE TO PRACTICE

## FOLLOW THE BLUE LINE

Put Safety Principles into Practice. This book is based on David Lynn's personal experience building a successful safety culture using human performance principles. Readers will learn 5 strategic principles and 25 practices that will establish a framework that minimizes errors.

DAVID G. LYNN, CSP, is the President of Peak Safety Performance, LLC. His company is focused on helping clients develop strategic safety plans that address everyday challenges.

He is a professional speaker and published author with a unique blend of work experiences at OSHA, Duracell, Owens Corning, Fluor, and Peak Safety Performance. David has worked in the field on construction projects, managed safety on a plant level, and has lead corporate safety initiatives as a Corporate Safety Director.

# MANAGEMENT COMMITMENT & ENGAGEMENT

## Safety is more than a slogan.

"One of the first steps to transform your company's safety culture to "Best in Class" is to adopt a "Best is Standard" mentality. To achieve this goal, it takes 100% management commitment, participation, and engagement."

Learn how to set and meet your workplace safety goals.
